**Wake Forest University School of Law, Winston-Salem, NC**  
**Associate Director Educational Technology**

**February 15, 1999 – July 2001**

*Joint responsible with the members of the Dept. for maintaining and managing the law school's computer systems. Additional duties include joint responsibility with the Director for planning for the procurement and development of educational resources and technologies at the law school such as researching and implementing a long range administrative computing system for Admissions, Financial Aid, Registrar and Alumni; teaching students, members of the faculty, and member of the law school staff about the uses of technology, particularly increasing the faculty's knowledge of and ability to create web based courses and other electronic class presentations and materials in PowerPoint; providing technical support for the research and teaching activities of the faculty; providing technical support for the information provision operations of the library; providing technical support for the activities of the administrative offices that use computer systems; providing technical and informational support for available multimedia technology and development of new multimedia into all areas of the Law School's educational process. Overall responsibility for Law School exams taken on computer. Continue to serve as Y2K Compliance officer for the Law School and Law School STARS Project Head. (See full descriptions below).*

**Wake Forest University School of Law, Winston-Salem, NC**  
**Interim Director Educational Technology**

**May 15, 1998 - February 14, 1999**

*Primarily responsible for maintaining and managing the law school's computer systems. Additional duties include planning for the procurement and development of educational resources and technologies at the law school such as finding and implementing a web based mail system for easy access to e-mail from remote locations and facilitating a system whereby faculty and staff can access their networked word processing documents from remote locations; teaching students, members of the faculty, and member of the law school staff about the uses of technology, particularly new technology such as developing web based courses; providing technical support for the research and teaching activities of the faculty; providing technical support for the information provision operations of the library; providing technical support for the activities of the administrative offices that use computer systems; and managing and maintaining the law school's audiovisual systems. Shares responsibility with Search Committee to research a new Student Administrative Services solution which must be Y2K compliant and in place by July 1, 1999, and served as primary liaison between Law School personnel and the solution provider in order to implement and maintain the chosen package. Overall responsibility for Law School exams taken on computer. Maintain all former responsibilities of Associate Director as well.*

*Y2K Compliance officer for the Law School responsible for all software and hardware inventory, assessment, renovation, validation and implementation. This includes responsibility for Law School Administrative database systems most of which have to be changed to meet compliance. These new database include but are not limited to SRN for Registration, ACCPAC for Windows for Budget, 1stPlace! for Placement and AccountMate for CLE.*

*Law School STARS Project Head. Student Technology Advisors partner with faculty members in a joint effort to explore the use of technology in teaching and learning and accelerate the adoption of technology into the curriculum.*

**Associate Director and Senior Systems Coordinator  
Department of Educational Technology**

**May 1994 – May 1998**

*Shared responsibility with Director for articulating the Law School's technology vision. (This includes developing computing policies and procedures for the Law School, planning for and implementing all academic and administrative computing needs, network operations, WWW facilities, computer hardware and software development, purchase, installation, maintenance and troubleshooting of all hardware and software). Shared responsibility with Director to plan for potential future implementation of laptops for students including learning about and assisting faculty to develop web based courses and other ways to adapt teaching methodology to utilize this new technology. Overall responsibility for Law School exams taken on computer. Overall responsibility for all Law School multimedia including four fully equipped multimedia classrooms, two courtrooms and the Law School's state-of-the-art auditorium, all faculty and student use of available multimedia technology and development of new multimedia into all areas of the Law School's educational process. Shared responsibility with Director for migrating our Vines network to NT which was completed March, 1998. Designed and implemented Law School cc:Mail system. Overall responsibility for many internal Law School databases.*

**Interim Director Computer Services**

**August, 1993 - May 1994**

*Performed the duties of Director of Computer Services and Associate Director on an interim basis after the retirement of the previous Director. Additionally assumed responsibilities for Law School multimedia technology. Responsibilities included planning, implementing and coordination of all law school multimedia and computer development, budget, training, supervising and managing network operating system and systems security.*

**Associate Director Computer Services**

**March 1986-July, 1993**

*Responsibilities included working with Director and Faculty representatives on overall planning and development of Law School computer use, assisting Director with network management, security, with special emphasis on telecommunications, software, and virus protection software and procedures. Planned and implemented the Law School's Computerized Legal Research and Instruction Center (CLRIC). Provided hardware and software training for all members of the Law School community. Served as primary Consultant to Faculty on integration of technology into the legal education process.*

*1991-1993 - Wake Forest University built the Worrell Professional Center, the first building to house both a Law School and Graduate School of Business in the country. Shared responsibility with Directors of Technology of the Law School, Business School and main University to design, plan, purchase, install and implement all technology for the new building including technology infrastructure.*

**AV Law Librarian**

**August, 1984 - March 1986**

*Responsibilities included working with Law Library personnel, students and faculty to integrate audio-visual technology into the legal education process. Produced, edited, programmed and co-wrote with personnel from Harvard Law School, four interactive video projects done with Harvard Law School in 1985-1986.*

**Office Practices Class**

**1990-1994**

*Team taught this class which is offered one semester per year.*

**The VERITAS Interactive Video Project**

**1985-1986**

*Produced, edited, programmed and co-wrote with personnel from Harvard Law School, four interactive video projects done with Harvard Law School in 1985-1986. These were sold to Lawyer's Cooperative Publishing Co. for nationwide distribution.*
